Operation/Task:	Server Build (Hardening) Process - Linux			Equipment:	N/A
Owner:	Vice President of Technology	Date Prepared:	3/2/20	Department Responsibilities:	All IT Staff
		Revision History:	See last page		

ALERTS (see below): Critical Step ◆ Quality Check ☑ Tip ☺ Team Safety ✚

Purpose: This SOP/work instruction documents the procedures for building/hardening Linux servers.

Step #	Alerts	Step Description - "What to Do"	"How to Do it"	"Why to Do it"
1	◆	**Follow Server on-boarding checklist**	• Follow the steps outlined in the "Server Provision Checklist-Linux.xlsx" located in the shared DIT folder. Once completed, the documentation should be appended to the ticket.	Standard construction templates for production systems are necessary for stable and mature infrastructure environments.
