Introduction

Overview

This document provides user instructions for the EFI PrintStream Delete Job.

Contact Information

EFI Support

US Phone:	855.334.4457 (first select option 3, then press option 8, then press option 1)
US Fax:	415.233.4157
US E-mail:	printstream.support@efi.com

Regular Service Desk hours are 8:00 AM to 7:00 PM Central Time, Monday – Friday. Outside of these hours, you may leave a voice mail message and an on-call support representative will be paged. Response time is based on the severity of the issue.

Note For problems involving infrastructure (i.e., computers, networks, operating systems, backup software, printers, third-party software, etc.), contact the appropriate vendor. EFI cannot support these types of issues.

EFI Professional Services

US Phone:	651.365.5321
US Fax:	651.365.5334
F-Mail:	ProfessionalServicesOperations@efi.com

EFI Professional Services can help you perform EFI software installations, upgrades, and updates. This group can also help you implement, customize, and optimize your EFI software plus offer a range of training options.

Delete Job Overview

The EFI PrintStream Delete Job program allows you to delete jobs and quotes.

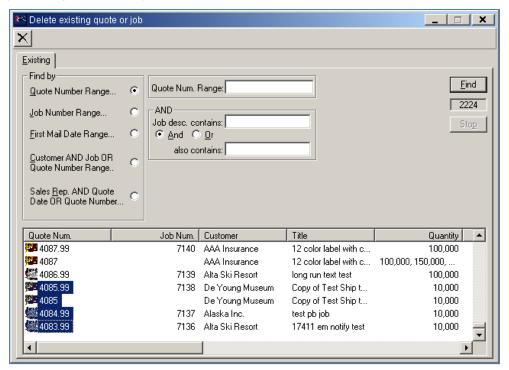

Delete Quotes and Jobs

This program allows you to block a series of quotes by either holding down the <Control> key and clicking on the quotes to delete or clicking on the first quote while holding down the <Shift> key and then clicking on the last quote which will highlight the series. When you click on the delete button it will remove them all.

To delete a quote or job

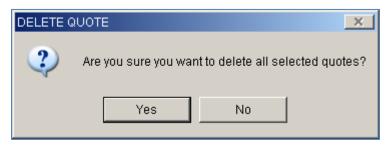

- 1. Open Delete existing job or quote window.
- 2. Select a Find By filter criteria. Click Find.
- 3. From the list on the bottom select a quote or job. Use the <Control> key to select multiple quotes or jobs. Using the<Shift> key will select a series.

4. Click the delete button.

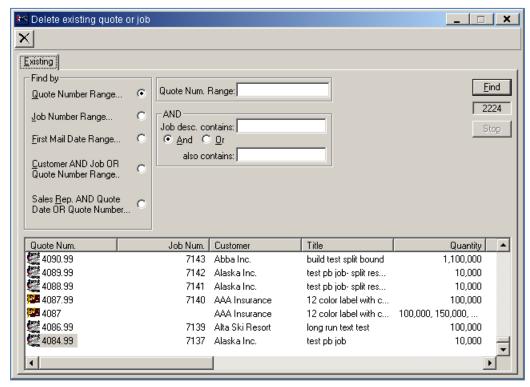

Click Yes to delete.

Note You will not be allowed to delete jobs which have been invoiced and/or have job transactions.

6. The items you selected will now be deleted.

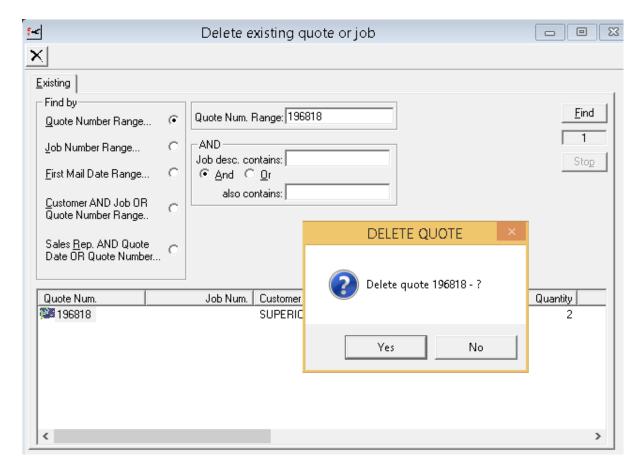

New programming to allow for deleting of Master Templates

Key Points

- The user needs to be able to delete Master Templates ONLY if Master Templates have not been used for Job Creation
- The user needs to receive warning to prevent from deleting Master Quote in case Jobs were created based on this template
- Even if Master Template has not been used to create ANY jobs yet it would be safe to allow to delete Master Template just after submitting PASSWORD as Creating Template is time consuming and loosing newly created Templates which were NOT used but created to be used in a future should be protected at least with password use
- In order to provide quick turn around and easy delivery Delete Master Template functionality should be implemented via the Delete Job Module which does not involve complicated compilation with less dependencies

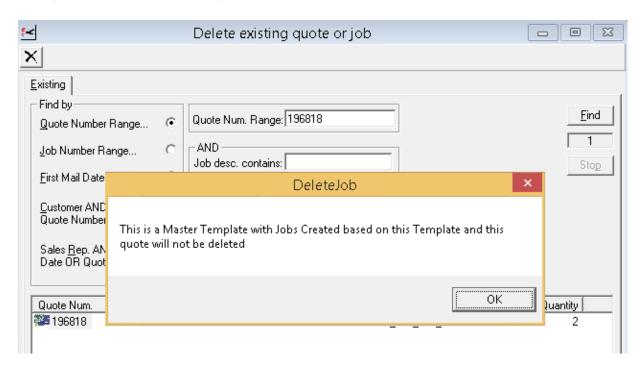

Workflow

1. User will enter the Quote Number to Delete

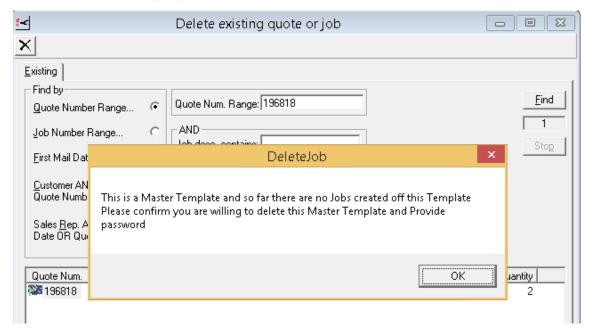

2. User confirm Yes to Delete Quote

After Quote is identified as a Master Quote

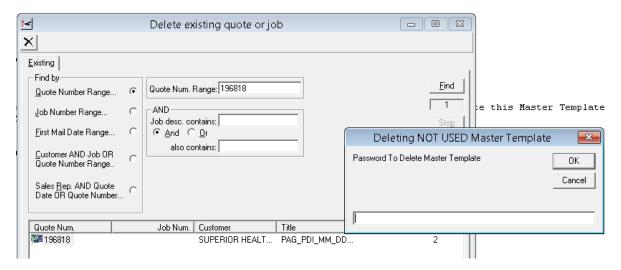

3. If Quote will be identified as a Master Template WITHOUT any Jobs created based on this Quote:

First status of the quote is going to be confirmed

4. And Input Box for the Password will be offered

5. If user not providing correct password
